- ▶ ATSIP Traffic Records Forum
- ▶ Agency Reports
- ▶ Other Business, New Business
- ▶ Adjournment

Minutes Review

- ▶ Minutes from May 9, 2017 meeting.
- ▶ Any additions or modifications?
- ▶ Motion for approval?

New Request - Louisiana State Police LACRASH Project

- ▶ Request for new hardware, and software to support LSP's migration to LACRASH
- ▶ It will allow State Police to send narratives and diagrams that are currently not being shared from the vendor. These narratives and diagrams support data completeness and allow for much needed data sharing with the Louisiana Department of Transportation and Development.
- ▶ It gives LSP the ability to revise crash reports electronically. Under the current system, any updates are made through paper supplemental reports. Examples of these updates include crucial information such as driver blood alcohol content (BAC) and injury severity levels, thus adding to the accuracy of reporting.
- ▶ Once installation of servers are complete, the migration of the Louisiana State Police to the State's crash reporting system will be to add one State Police Troop (total of 9 LSP Troops in the State) per month to LACRASH until complete.

New Request - Louisiana State Police LACRASH Project

- ▶ Hardware (servers, memory, and hard drives) and Software to support LSP's transition to LACRASH, total cost: \$24,172
 - No equipment requested costs over \$5,000 (Buy America will not be a concern)
- ▶ LHSC's plan to prioritize project funding if approved
